NEW YORK, NY 10278-0090

CENAN-PP

SEP 11 2015

Mr. David Rosenblatt
Administrator
New Jersey Department of Environmental Protection
Office on Engineering and Construction
501 East State Street
P.O. Box 419
Trenton, New Jersey 08625-0419

Dear Mr. Rosenblatt:

Section 1002 of the Water Resources Reform and Development Act of 2014 (WRRDA) allows for greater transparency in the notification and reporting of feasibility study milestones. Section 1002 requires the District Engineer to provide non-Federal interests a notification of feasibility study milestone schedules for all active studies that received Investigation appropriations since October 1, 2009 until June 10, 2014. Studies initiated after June 10, 2014 also require notification of milestones within 90 days of signing the Feasibility Cost Sharing Agreement.

This certified letter provides the current study schedule for the enclosures associated with the below active projects.

Schedules are based on the assumption of full-funding (Federal and non-Federal) over the course of the study. Up-to-date study schedules will be posted and available to the public on (<http://www.nan.usace.army.mil>) the New York District website. All schedules and missed deadlines will also be submitted in an annual report to Congress. If you have any questions please contact the project managers, or program managers Paul Tumminello (Civil), 917-790-8210 and Anthony Ciorra (Sandy), 917-790-8208.

Sincerely,

David A. Caldwell
Colonel, U.S. Army
Commander
