

# PUBLIC NOTICE

US Army Corps  
of Engineers  
New York District  
Jacob K. Javits Federal Building  
New York, N.Y. 10278-0090  
ATTN: Regulatory Branch

**In replying refer to:**  
Public Notice Number: NAN-2012-00090-M2  
Issue Date: January 14, 2014  
Expiration Date: March 24, 2019

## To Whom It May Concern:

On April 25, 2013, the New York District of the U.S. Army Corps of Engineers issued Department of the Army Permit No. NAN-2012-00090 to the New York State Thruway Authority, for activities associated with the construction of the New NY Bridge, and the replacement of the existing Tappan Zee Bridge. The permit was modified on June 24, 2013, to allow for some minor changes to the original work (Permit No, NAN-2012-00090-M1).

On January 14, 2014, the New York District issued a second modification of the above referenced permit (Permit No. NAN-2012-00090-M2). This modification was at the request of the permittee, in light of the on-going construction on the project and the need for facilities for mooring barges and construction equipment for the project. This modification authorizes changes to the barge mooring fields to the north and south of the existing bridge, with the relocation of 4 (four) previously authorized barge mooring buoys and the installation of 12 (twelve) additional barge mooring buoys. The locations of the buoys in the mooring fields are shown on the attached drawing, along with their relevant swing radii (including safety allowances).

It is anticipated that the permittee will insure that information with regard to the installation and repositioning of the buoys will be published in the Local Notice to Mariners prior to the initiation of such work. The purpose of this public notice is to insure that waterway users are aware of these activities within the river.

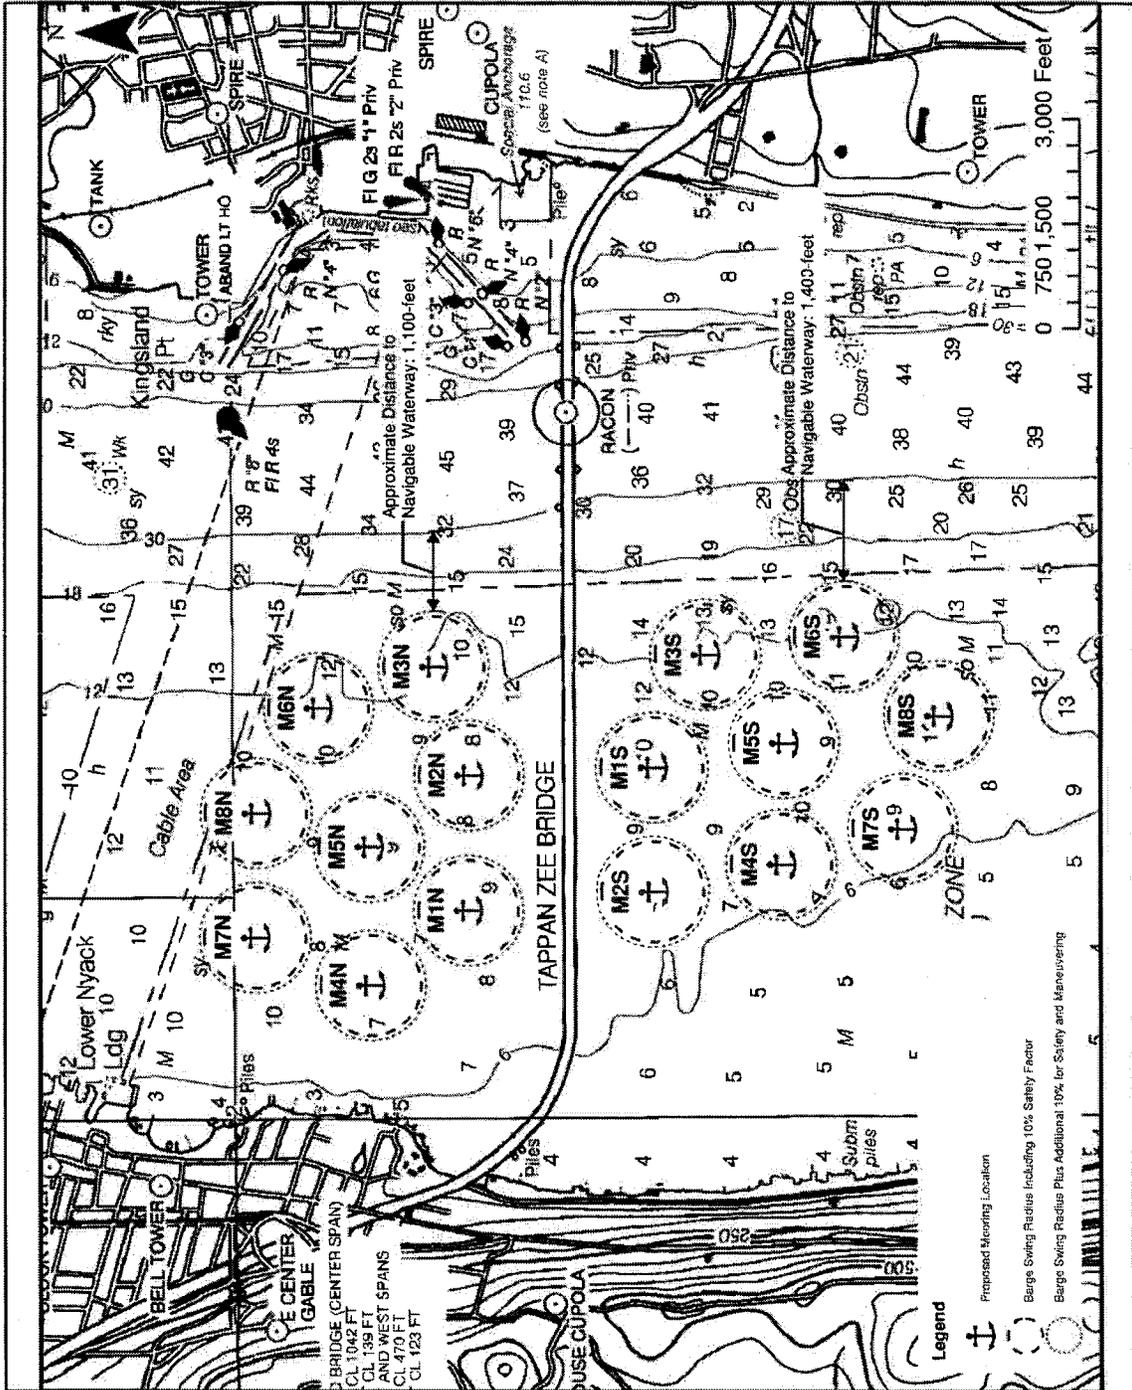

It is requested that you communicate the foregoing information concerning the activity to any persons known by you to be interested and who did not receive a copy of this notice. If you have any questions concerning this application, you may contact this office at 917-790-8418 and ask for the undersigned.
