

Figures

1-1	Location Map	1-2
1-2	Central Jersey Highways	1-3
1-3	Southwestern Middlesex County/Northeastern Mercer County.....	1-4
1-4	Route 92 EIS – Regional Road Network & Land Use Patterns	1-9
1-5	Screenline Intercepting East-West Roads	1-16
2-1	Alternatives Analysis–Existing Local and County Roadway Capacity Improvements	2-12
2-2	Alternatives Analysis – Improvements to Existing Regional Road Network	2-21
2-3	Alternatives Analysis – New Roadway Facility Alternatives	2-30
2-4	Alternatives Analysis – Alternative Typical Route 92 Sections	2-36
2-5	Alternatives Analysis – Proposed Route 92 without Perrine Road Interchange	2-42
2-6	Alternatives Analysis	2-52
3-1	Topography (8 sheets).....	3-103
3-2	Geologic Formations.....	3-111
3-3a	Soils (Route 92)	3-112
3-3b	Soils (Route 1)	3-113
3-4	Surface Water Features with Water Quality Monitoring Locations	3-114
3-5	FEMA Flood Hazard Areas	3-115
3-6	NJDEP Flood Hazard Areas	3-116
3-7	Bedrock Aquifers	3-117
3-8	Surficial and Sole Source Aquifers	3-118
3-9	Major Wetland Systems in Route 92 Study Area	3-119
3-10	Major Wetland Systems in Route 1 Study Area	3-120
3-11	Wetland Area Locations.....	3-121
3-12	Study Area Habitat	3-122
3-13	Middlesex County Farmland Preservation Program.....	3-123
3-14	Southwestern Middlesex County/Northeastern Mercer County.....	3-124
3-15	2001 A.M. Modeled Peak Hour Traffic Flows and Congestion Levels	3-125
3-16	2001 P.M. Modeled Peak Hour Traffic Flows and Congestion Levels	3-126
3-17	2028 A.M. Projected Peak Hour Traffic Flows and Congestion Levels – No Action Scenario	3-127
3-18	2028 P.M. Projected Peak Hour Traffic Flows and Congestion Levels – No Action Scenario	3-128
3-19	Screenline-Intercepting East-West Roads.....	3-129
3-20	Noise Monitoring and Modeling Locations (3 sheets).....	3-130
3-21	Prior Noise Monitoring Locations (1983 and 1993).....	3-133
3-22	Known Contaminated Sites.....	3-134
3-23a	Land Use – Route 92 Impact Corridor	3-135
3-23b	Land Use – Route 1 Impact Corridor	3-136

3-24a	Zoning (Route 92 Corridor)	3-137
3-24b	Zoning--Route 1 Corridor	3-138
3-25	Minority Status for Blocks in Route 92 Corridor	3-139
4-1	2028 A.M. Peak Hour Traffic Changes – Route 92 vs. No Action	4-44
4-2	2028 P.M. Peak Hour Traffic Changes – Route 92 vs. No Action.....	4-45
4-3	2028 A.M. Peak Hour Truck Volume Changes – Route 92 vs. No Action	4-47
4-4	2028 P.M. Peak Hour Truck Volume Changes – Route 92 vs. No Action.....	4-48
4-5	2028 A.M. Projected Peak Hour Traffic Flows and Congestion Levels – Route 92 Scenario	4-50
4-6	2028 P.M. Projected Peak Hour Traffic Flows and Congestion Levels – Route 92 Scenario	4-51
4-7	2028 A.M. Peak Hour Traffic Changes – Route 1 Widening and Signal Removal vs. No Action	4-85
4-8	2028 P.M. Peak Hour Traffic Changes – Route 1 Widening and Signal Removal vs. No Action	4-86
4-9	2028 A.M. Peak Hour Truck Volume Changes – Route 1 Widening and Signal Removal vs. No Action.....	4-88
4-10	2028 P.M. Peak Hour Truck Volume Changes – Route 1 Widening and Signal Removal vs. No Action.....	4-89
4-11	2028 A.M. Projected Peak Hour Traffic Flows and Congestion Levels – Route 1 Widening and Signal Removal Scenario	4-91
4-12	2028 P.M. Projected Peak Hour Traffic Flows and Congestion Levels – Route 1 Widening and Signal Removal Scenario	4-92
5-1	Stormwater Management Basin Locations (3 sheets)	5-7
5-2	2028 A.M. Peak Hour Truck Volume Changes with Truck Prohibitions – Route 92 vs. No Action.....	5-18
5-3	2028 P.M. Peak Hour Truck Volume Changes with Truck Prohibitions – Route 92 vs. No Action.....	5-19
