

# NEWARK BAY, HACKENSACK RIVER & PASSAIC RIVER STUDY AREA

## Hudson-Raritan Estuary Ecosystem Restoration Project

### POTENTIAL RESTORATION SITES

HRE ID#	Site Name	HRE ID#	Site Name
1NHP	Oradell Reservoir Dam	19NHP	Hackensack River
2NHP	Van Buskirk Island	20NHP	Third River
3NHP	Dundee Dam	21NHP	Anderson Creek Marsh
4NHP	Overpeck Creek	22NHP	Empire Tract
5NHP	Moonachie Creek	23NHP	Laurel Hill Park Wetlands
6NHP	Passaic River	24NHP	Lyndhurst Riverside Marsh
7NHP	Lincoln Park West	25NHP	Meadowlark Marsh
8NHP	Hudson County Mall	26NHP	Mehrfhof Pond
9NHP	Newark Bay (Shoreline Restoration)	27NHP	Metro Media Tract
10NHP	Newark Bay (Hotspot Remediation)	28NHP	Mori Tract
11NHP	Newark Bay/Bayonne Park	29NHP	Oritani Marsh
12NHP	Berrys Creek	30NHP	Petrillo Tract
13NHP	Losen Slote	31NHP	Riverbend Wetlands Preserve
14NHP	Bellmans Creek	32NHP	Secaucus High School
15NHP	Kearny Marsh/Hackensack Meadowslands	33NHP	Secaucus Tract
16NHP	Mill Creek/Hackensack Meadowslands	34NHP	Steiners Marsh
17NHP	NJ Turnpike Fringes/Western Spur	35NHP	Teterboro Woods
18NHP	Penhorn Creek

The Hudson-Raritan Estuary Ecosystem Restoration Project (HREERP) is being carried out under the U.S. Army Corps of Engineers' General Investigations (GI) Program in coordination with The Port Authority of New York & New Jersey. The goals of the study are to establish, restore, and enhance ecological systems throughout the NY/NJ Harbor Estuary to self-sustainable levels. This map is a draft product of the Environmental Analysis Branch, Planning Division, Army Corps of Engineers, New York District's Feasibility Study for the HREERP. The candidate habitat restoration sites depicted on this map are those identified by the "Needs and Opportunities" Report, prepared for the Port Authority of NY & NJ by the Regional Plan Association. The HREERP review process is both extensive and dynamic, therefore, it is expected that restoration sites will be added, eliminated or modified throughout the study. Additional maps will be produced as revisions to the restoration sites are made.
