WYNANTSKILL CREEK

North Greenbush, NY

Flood Control Study

FACT SHEET

DESCRIPTION: Wynantskill Creek is located in the Town of North Greenbush, New York. Several areas that lie along Wynantskill Creek have experienced significant damages during past flooding events. There is also a great amount of sedimentation buildup that has nearly blocked off outfall pipes and considerably decreased the depth of the water in the creek.

AUTHORIZATION/PROJECT DESCRIPTION: Section 205 of the Flood Control Act of 1948, as amended

STATUS: The study is currently in the reconnaissance phase. An Initial Appraisal Report (IAR) has been prepared and is being coordinated with the New York State Department of Environmental Conservation (NYSDEC) and local interests to identify a potential non-Federal sponsor to share the cost of a feasibility phase study.

STUDY COST:

Estimated Federal Cost:	\$100,000
Estimated Non-Federal Cost:	<u>0</u>
Total:	\$100,000
