| EV Charging Station-UMMCA | Watervliet Arsenal, NY | Q3 FY25 | TBD | \$250K - \$5M | TBD | IFB |

► About

The New York District's \$1.1 billion program oversees some of the largest infrastructure projects in the nation from its headquarters in bustling lower Manhattan.

As one of 38 districts nationwide, the New York District's mission areas include navigation, environmental regulation, coastal storm and flood risk management, military construction, and emergency operations across a 26,000-square-mile region. The district's work maintains waterways, protects coastlines, and responds to disasters of all kinds.

The district also plays a critical role in ensuring the safety and well-being of the communities it serves. The district serves millions of people across five states, including New York, New Jersey, Vermont, Massachusetts, and Connecticut. Although the district has military leadership, its employees are mostly civilians, ranging from engineers to accountants.
