

**USACE New York District**  
**Interim Dredged Material Management Plan (DMMP)**  
**Update for the Port of New York and New Jersey -**  
**Feedback Form**

The USACE team is requesting feedback from interested entities regarding the Interim DMMP Update for the Port of New York and New Jersey.

Types of feedback could include input on planned/proposed large projects that will generate dredged material, dredged material placement needs and opportunities, and innovative new technologies or practices in managing dredged material.

All types of feedback are welcome!

Please email completed feedback forms or additional questions and comments to :
