

DEPARTMENT OF THE ARMY  
US ARMY CORPS OF ENGINEERS, NEW YORK DISTRICT  
JACOB K. JAVITS FEDERAL BUILDING  
26 FEDERAL PLAZA  
NEW YORK NY 10278-0090

AUG 09 2023

Mr. Kenneth Kosinski, Bureau Chief  
Bureau of Flood Protection and Dam Safety, Division of Water  
New York State Department of Environmental Conservation  
625 Broadway  
Albany, New York 12233-3504

Dear Mr. Kosinski:

Section 1002 of the Water Resources Reform and Development Act of 2014 (WRRDA) allows for greater transparency in the notification and reporting of feasibility study milestones. Section 1002 requires the District Engineer to provide non-Federal interests a notification of feasibility study milestones schedules for all active studies that received Investigation appropriations since October 1, 2009, until June 10, 2014. Studies initiated after June 10, 2014, also require notification of milestones within 90 days of signing the Feasibility Cost Sharing Agreement. Notification is also required when milestones have changed.

This certified letter provides a list (enclosed) of current studies, projects, their managers and schedules. Schedules are based on the assumption of full funding (Federal and non-Federal) over the course of study. Updated study schedules will be posted and available to the public on the New York District website (<https://www.nan.usace.army.mil>). All schedules and missed deadlines will also be submitted in an annual report to Congress. Other studies reported in prior years have all been completed.

If you have any questions, please contact the project manager or program manager, Mr. Paul Tumminello at 917-790-8210.

Sincerely,

A handwritten signature in black ink, appearing to read "Alex Young", with a stylized flourish at the end.

Alexander L. Young  
Colonel, U.S. Army  
Commander and District Engineer
