26 Federal Plaza
New York, NY 10278-0090

917-790-8384 (Phone)
Email: cenan-emb-invoices@usace.army.mil
3. Contractor Performance Assessment Report System (CPARS)

CPARS is a web-enabled application that collects and manages the library of automated CPARS. A CPAR assesses a contractor's performance and provides a record, both positive and negative, on a given contractor during a specific period of time. Each assessment is based on objective facts and supported by program and contract management data, such as cost performance reports, customer comments, quality reviews, technical interchange meetings, financial solvency assessments, construction/production management reviews, contractor operations reviews, functional performance evaluations, and earned contract incentives.
