Dear Mr. Rosenblatt:

Section 1002 of the Water Resources Reform and Development Act of 2014 (WRRDA) allows for greater transparency in the notification and reporting of feasibility study milestones. Section 1002 requires the District Engineer to provide non-Federal interests a notification of feasibility study milestone schedules for all active studies that received Investigations appropriations since October 1, 2009 until June 10, 2014. Studies initiated after June 10, 2014 also require notification of milestones within 90 days of signing the Feasibility Cost Sharing Agreement. Notification is also required when milestones have changed.

This certified letter provides a list of current studies, projects, their managers, and schedules. Schedules are based on the assumption of full funding (Federal and non-Federal) over the course of the study. Up-to-date study schedules will be posted and available to the public on the New York District website (<https://www.nan.usace.army.mil>). All schedules and missed deadlines will also be submitted in an annual report to Congress. Currently there are two projects to be reported. Other studies reported in prior years have all been completed.

If you have any questions please contact the project managers or their program manager, Mr. Paul Tumminello (Civil), 917-790-8210.

Sincerely,

A handwritten signature in black ink, appearing to read "M. W. Luzzatto", is positioned above the typed name.
