2. The requirements of this rule do not apply because the total direct and indirect emissions from this project are significantly less than the 100-ton significance levels for NO_x, PM_{2.5}, and SO₂ and the 50-ton significance level for VOCs in any project year (40CFR§93.153(b)(1) & (2)). The estimated emissions for the project for each pollutant are provided below.
